

## How to Introduce a Clinical Trial

**Practical information:** Number of participants: Between 3 and 6  
Duration: 4 ½ days  
Price per person @ Valesta office: €1300

### Course Overview

Excellent communication skills are integral for anyone working in clinical research. Through efficient communication you will be able to perform better in your clinical research role in which you communicate with foreign language clients.

The ability to introduce a clinical trial in the language of the site personnel or other stakeholders is crucial and requires a high level of knowledge of that specific language. This course of four half days is focused on clinical research, meaning all exercises have a medical or clinical research dimension to make the exercise match the language needs of a clinical research professional.

### By attending this course you will gain:

- ✓ The necessary presentation skills to introduce a clinical trial (e.g. an initiation visit) in the target language
- ✓ Skills to enable you to communicate better, and with more efficiency and professionalism during the site visit where you must converse in a certain language
- ✓ Knowledge on how to use non-verbal communication more effectively
- ✓ The focus of the training will be on oral exercises, using simulations of real-life situations where active participation is required. Some basic theory will be provided on structure, terminology, key sentences and expressions.

### The topics covered during this course include:

- Presentation exercises, where participants present on a topic of their choice, utilising skills and techniques gained, such as:
  - How to structure your presentation?
  - What you want to communicate?
  - What are the key messages?
  - Which words, terms and language is used?
  - Tailoring the communication to audience.
- Written communication
- Verbal and non-verbal communication with a focus on public speaking/presenting

A European B1 level in the target language is required. Before taking this course, you will be tested to evaluate your level of knowledge.
