

Risk Based Monitoring Workshop

Practical information: Number of participants: Between 5 and 20
Duration: ½ day (4 hours)
Price per person @ Valesta office: €450

Course Overview

Taking a risk based approach to monitor clinical trials is becoming the new normal in the industry, due to the amendment to ICH-GCP (R2) guidelines and adoption by various regulatory agencies. This change requests a shift in mindset of all involved parties and the company. Within the industry there is a necessity to use the risk based approach in current and future clinical trials.

During this interactive half day workshop we will provide you with theoretical background on Risk Based Monitoring and various tips and tricks for concrete implementation within your company. We strive to develop a personalised action plan for all participants to initiate and adopt these new strategies, thus overcoming current concerns on Risk Based Monitoring at your firm.

By attending this course you will gain:

- ✓ An understanding of the rationale for Risk Based Monitoring
- ✓ A better insight into how it impacts your work
- ✓ Insight into the adoption of Risk Based Monitoring

Course Content

The content of this course is theoretically and practically orientated and aspects can be adapted to reflect the experiences of the participants attending. The workshop is interactive with participants learning through the exchanging of personal experiences and individual points of view.

During the break-out sessions we focus on the area of greatest interest for the participants to look for possible improvements for the adoption of the change.

The topics covered during this course include:

- History of risk based approach
- Responsibilities of site and sponsor
- Different types of implementation
- Benefits of Risk Based Monitoring

Active participation is essential. This will improve the outcome of the workshop, as your personal input directly influences the content of the break-out sessions where we build your personal action plan to improve the Risk Based Monitoring approach within your company.
